

2nd International Mobile, Intelligent, and Ubiquitous Computing Conference (MIUCC) May (8-9), Cairo - Egypt

Misr International University (MIU) is proudly organizing the 2nd International Intelligent, and Ubiquitous Computing Conference (MIUCC -22). In MIUCC-22 we will provide an excellent international forum for sharing recent knowledge and results in theory, methodology and applications of significant majors in computer science. The goal of this Conference is to bring together researchers and practitioners from academia and industry to focus on understanding recent concepts and establishing new collaborations in major computer science areas.

Authors are solicited to contribute to the conference by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the following (but not limited to) the following tracks.

All accepted papers will be published by IEEE. The conference proceedings will be indexed by Ei-Compindex and Scopus.
